

제23회 연세 송당 암연구소

국제 암 심포지엄

23rd International Symposium of Yonsei Song-dang Institute for Cancer Research

“Evolving Treatment Paradigm with Biomarker and Immune-targeted Treatment”

일시 | 2017년 11월 3일(금), 09:00-17:00

장소 | 연세대학교 의과대학 에비슨의생명연구소 유일한홀(1층)

09:00-09:05 **Opening Address** Hyun Cheol Chung, MD, PhD (Director, Yonsei Song-dang Institute for Cancer Research, Korea)
 09:05-09:15 **Welcome Address** Si Young Song, MD, PhD (Dean, Yonsei University College of Medicine, Korea)

Session I : Immunotherapy

Woo Ick Jang, MD, PhD (Handok Inc.)

09:15-09:45 Development of highly potent, anti-PD-L1, immuno-oncology antibody Dae Hee Kim, PhD (Scripps Korea, Korea)
 09:45-10:15 Structural Basis of Checkpoint Blockade by Monoclonal Antibodies in Cancer Immunotherapy Yong-Seok Heo, PhD (Konkuk University, Korea)
 10:15-10:45 Mitochondrial manipulation improves PD-1 blockade immunotherapy Kenji Chamoto, PhD (Kyoto Univ, Japan)
 10:45-11:15 What else other than PD-1? Eui-Cheol Shin, MD, PhD (KAIST, Korea)
 11:15-11:45 How Biomarkers Can Help Physicians Overcome The Challenges of Developing Immuno-oncology Therapies Michael Axelson, MD (BMS, USA)
 11:45-12:00 Coffee Break
 12:00-13:10 **Luncheon** Joong Bae Ahn, MD, PhD (Yonsei University, Korea)
 Current status and new trend of gastric cancer treatment
 Ken Kato, MD, PhD(National Cancer Center Hospital, Japan)

Session II : Novel Targeted Agents

Hoi Young Lee, PhD (Konyang University, Korea)

13:10-13:40 Anti-B Cell Maturation Antigen (BCMA) – antibody drug conjugate for multiple myeloma Yan Li, MD, PhD (GSK, USA)
 13:40-14:10 KRAS Inhibition, 30 years of pursuit Sung Joo Lee, PhD (Orum Therapeutics, Korea)
 14:10-14:35 Early clinical efficacy of TAS-120, a highly selective covalent FGFR inhibitor in patients with advanced solid tumors Hiroshi Hirai, PhD (TAIHO, Japan)
 14:35-15:00 A novel highly potent allosteric AKT inhibitor, TAS-117 Takuya Kuramoto, PhD (TAIHO, Japan)
 15:00-15:20 Coffee Break

Session III : liquid biopsy

Sun Young Rha, MD, PhD (Yonsei University, Korea)

15:20-15:50 Development of Droplet Digital PCR-based Molecular Diagnosis for Cell-free Tumor DNA Samples Young Kee Shin, MD, PhD (Seoul National University, Korea)
 15:50-16:20 Proteomic serum biomarkers of cancer for prognosis and selection of adjuvant therapy Cheolju Lee, PhD (KIST, Korea)
 16:20-16:50 Identifying Appropriate Patients for Immunotherapy in Gastric Cancer - Immune Checkpoint Inhibitor Biomarkers: from PD-L1 expression to MSI & TMB Yang Shao, PhD (Geneseeq, China)
 Close
